

# Are you ready?

Fill your gas tank, grab a water, take some cash, its time for a road trip.

---

## Let's Go...

Choose what direction you will drive: N, E, S, W

Drive 35 miles in that direction on the largest highway out of town (take multiple highways if you need to) When you have driven 35 miles get off the highway on the first off ramp.

## Which way...

Choose what way you will turn. L or R?

Drive 45 miles in that direction (stop anywhere that sparks your interest along the way) When you have driven 45 miles stop and take a selfie photo right there. Share @going4adventure

## Our turn...

Drive to the first 4 way stop and choose R. (stop anywhere that sparks your interest along the way) Drive 10 miles and stop. Do you see a color you like or a brown sign for a park or landmark? Drive toward that color or park/landmark. Be curious you never know what you will find.

## Make a memory

When you get to the thing that is that color, park or landmark look around for something interesting or unique? Stop there, take a 5 sec delay photo of you and your road trip peeps jumping in the air. Arms up High :)

## Break Time

Find the closest best option for breakfast or lunch.

After you eat repeat the sequence or head home!
